RESULTS OF OPERATIONS

Set forth below are the results of operations for the three and nine months ended June 30, 2015 and 2014.

Investment Income

Investment income for the three and nine months ended June 30, 2015 was \$40.6 million and \$122.5 million, respectively, and was attributable to \$12.3 million and \$42.6 million from senior secured loans, \$19.5 million and \$54.1 million from second lien secured debt, \$7.2 million and \$23.5 million from subordinated debt, and \$1.6 million and \$2.3 million from preferred and common equity, respectively. This compares to investment income for the three and nine months ended June 30, 2014, which was \$35.5 million and \$107.8 million, respectively, and was attributable to \$9.8 million and \$30.0 million from senior secured loans, \$13.3 million and \$39.9 million from second lien secured debt, \$11.6 million and \$35.7 million from subordinated debt, and \$0.8 million and \$2.2 million from preferred and common equity, respectively. The increase in investment income compared with the same periods in the prior year was primarily due to the growth of our portfolio.

Expenses

Expenses for the three and nine months ended June 30, 2015 totaled \$20.0 million and \$60.3 million, respectively. Base management fee for the same periods totaled \$6.5 million and \$20.1 million, incentive fee totaled \$5.2 million and \$15.6 million, debt related interest and expenses totaled \$6.6 million and \$19.7 million and general and administrative expenses totaled \$1.7 million and \$4.9 million, respectively. This compares to expenses for the three and nine months ended June 30, 2014, which totaled \$22.3 million and \$56.6 million, respectively. Base management fee for the same periods totaled \$6.1 million and \$17.9 million, incentive fee totaled \$5.4 million and \$14.9 million (including \$1.6 million on net realized gains accrued but not payable), debt related interest and expenses totaled \$8.9 million and \$18.6 million (including \$3.9 million of debt issuance costs under our multi-currency, senior secured revolving credit facility, as amended and restated, or the Credit Facility) and general and administrative expenses totaled \$1.9 million and \$5.2 million, respectively. The decrease in expenses for the three months ended June 30, 2015 as compared to the same period in the prior year is due to the absence of debt issuance costs in the current period, whereas, the increase in expenses for the nine months ended June 30, 2015 as compared with the same period in the prior year was primarily due to increased borrowing costs and the growth of our portfolio.

Net Investment Income

Net investment income totaled \$20.7 million and \$62.2 million, or \$0.28 and \$0.83 per share, for the three and nine months ended June 30, 2015, respectively. Net investment income totaled \$13.2 million and \$51.2 million, or \$0.20 and \$0.77 per share, for the three and nine months ended June 30, 2014, respectively. The increase in net investment income compared to the same periods in the prior year was primarily due to the growth of our portfolio and lower amendment costs offset by higher financing costs.

Net Realized Gains or Losses

Sales and repayments of investments for the three and nine months ended June 30, 2015 totaled \$107.0 million and \$289.5 million, respectively, and realized gains totaled \$13.8 million and \$31.9 million, respectively. Sales and repayments of investments for the three and nine months ended June 30, 2014 totaled \$273.6 million and \$534.4 million, respectively, and realized gains totaled \$23.3 million and \$29.0 million, respectively. The decrease in realized gains for the three months ended June 30, 2015 as compared to the same period in the prior year was driven by fewer exits of our portfolio companies, whereas the increase in realized gains for the nine months ended June 30, 2015 as compared with the same period in the prior year was primarily due to the improved merger and acquisition environment and a higher volume of sales and repayments.

Unrealized Appreciation or Depreciation on Investments, Credit Facility, 2019 Notes and 2025 Notes

For the three and nine months ended June 30, 2015, we reported net unrealized depreciation on investments of \$30.2 million and \$108.1 million, respectively. For the three and nine months ended June 30, 2014, we reported a net unrealized (depreciation) appreciation on investments of \$(1.1) million and \$37.4 million, respectively. As of June 30, 2015 and September 30, 2014, our net unrealized depreciation on investments totaled \$109.0 million and \$0.9 million, respectively. The decrease in value compared with the same periods in the prior year was the result of the overall variation in the leveraged finance markets and specifically, for energy related companies.

For the three and nine months ended June 30, 2015, we reported net unrealized depreciation of \$0.6 million and \$2.3 million, respectively, on the Credit Facility, our 4.50% notes due 2019, or 2019 Notes, and our 6.25% senior notes due 2025, or 2025 Notes. For the three and nine months ended June 30, 2014, we reported a net unrealized (appreciation) on our Credit Facility and 2025 Notes of \$(3.4) million and \$(5.4) million, respectively. The change compared with the same periods in the prior year was primarily due to changes in the capital markets.

Net Change in Net Assets Resulting from Operations

Net change in net assets resulting from operations totaled \$4.9 million and \$(11.6) million, or \$0.07 and \$(0.16) per share, for the three and nine months ended June 30, 2015, respectively. This compares to a net change in net assets resulting from operations of \$31.9 million and \$112.1 million, or \$0.48 and \$1.68 per share, for the three and nine months ended June 30, 2014, respectively. The decrease in the net change in net assets from operations compared with the same periods in the prior year reflects the change in portfolio investment values during the reporting periods.

LIQUIDITY AND CAPITAL RESOURCES

Our liquidity and capital resources are derived primarily from proceeds of securities offerings, debt capital and cash flows from operations, including investment sales and repayments, and income earned. Our primary use of funds from operations includes investments in portfolio companies and payments of fees and other operating expenses we incur. We have used, and expect to continue to use, our debt capital and proceeds from the rotation of our portfolio and proceeds from public and private offerings of securities to finance our investment objectives.

As of June 30, 2015 and September 30, 2014, there was \$101.5 million and \$55.2 million, respectively, in outstanding borrowings under the Credit Facility, with a weighted average interest rate at the time of 3.17% and 2.80%, respectively, exclusive of the fee on undrawn commitments of 0.375%. The annualized weighted average cost of debt for the nine months ended June 30, 2015 and 2014, inclusive of the fee on the undrawn commitment on the Credit Facility and upfront fees on SBA debentures, was 4.55% and 3.94%, respectively. As of June 30, 2015 and September 30, 2014, we had \$443.5 million and \$489.8 million of unused borrowing capacity, respectively, subject to the regulatory restrictions that the 1940 Act imposes on us as a business development company.

As of June 30, 2015 and September 30, 2014, we had \$250.0 million and \$71.3 million in aggregate principal amount of 2019 Notes and 2025 Notes, respectively, with a fixed interest rate of 4.50% and 6.25% per year, respectively. As of June 30, 2015 and September 30, 2014, we had \$225.0 million in SBA debt commitments through certain of our consolidated subsidiaries and \$150.0 million was drawn for each period. As of June 30, 2014, we had \$71.3 million in aggregate principal amount of 2025 Notes with a fixed interest rate of 6.25%.

At June 30, 2015 and September 30, 2014, we had cash and cash equivalents of \$83.3 million and \$66.5 million, respectively, available for investing and general corporate purposes. We believe our liquidity and capital resources are sufficient to take advantage of market opportunities.

Our operating activities provided cash of \$41.4 million for the nine months ended June 30, 2015, primarily for net purchases of investments. Our financing activities used cash of \$24.8 million for the same period, primarily to repay certain amounts under our Credit Facility.

Our operating activities used cash of \$48.4 million for the nine months ended June 30, 2014, primarily for net purchases of investments. Our financing activities provided cash of \$54.5 million for the same period, primarily from net borrowings under our Credit Facility.

STOCK REPURCHASE PROGRAM

On May 6, 2015, we announced a share repurchase plan which allows us to repurchase up to \$35 million of our outstanding common stock in the open market at prices below our net asset value as reported in our then most recently published consolidated financial statements. The shares may be purchased from time to time at prevailing market prices, through open market transactions, including block transactions. Unless extended by our board of directors, the program, which may be implemented at the discretion of management, will expire on the earlier of May 6, 2016 and the repurchase of \$35 million of common stock. During the three and nine months ended June 30, 2015, we repurchased 833,213 shares of common stock in open market transactions for an aggregate cost (including transaction costs) of \$8.0 million. During the three and nine months ended June 30, 2014, we did not make any repurchases of our common stock.

DISTRIBUTIONS

During the three and nine months ended June 30, 2015, we declared to stockholders distributions of \$0.28 and \$0.84 per share, respectively, for total distributions of \$20.8 million and \$62.8 million, respectively. For the same periods in the prior year, we declared distributions of \$0.28 and \$0.84 per share, respectively, for total distributions of \$18.6 million and \$55.9 million, respectively. We monitor available net investment income to determine if a return of capital for taxation purposes may occur for the fiscal year. To the extent our taxable earnings fall below the total amount of our distributions for any given fiscal year, a portion of those distributions may be deemed to be a return of capital to our common stockholders. Tax characteristics of all distributions will be reported to stockholders on Form 1099-DIV after the end of the calendar year and in our periodic reports filed with the Securities and Exchange Commission, or the SEC.
